Subject: Docket Subject 19

[NMFTA Docket of Proposed Changes](#)

With regard to the Research project 19, Broilers, Grills or Waffle Irons, electric, other than oven-type. Respectfully, the commodity that prompted this project was for gas station hotdog rollers:

<https://hotdogrollermachine.com/partyhut-30-hot-dog-wamer-roller-grill-cooker-commercial-machine-11-hotdog-rollers-bun-warmer/>

<https://www.pmp-corp.com/Products/star-20sce-digital-roller-grill-non-stick-rollers-slanted-remanufactured/>

This commodity has an average density of 4 pcf, but is covered by NMFC 61065, class 85. I have no objection to using NMFC 26720, but there is no reference in the proposed item to the other two commodities listed in the canceled item:

	BOILERS, FURNACES, STOVES AND RELATED ARTICLES GROUP: subject to item 25400	
26720	Ovens, Ranges or Stoves, cooking, and Related Cooking Equipment, electric or gas, viz.:	
	Convection Ovens, including Air Fryers;	
	Hotplates;	
	Microwave Ovens;	
	Ovens, NOI;	
	Pizza Ovens;	
	Ranges, NOI;	
	Stoves, NOI, indoor type;	
	Stovetops, Cooktops or Grills, NOI, indoor type;	
	Toaster Ovens;	
	Waffle Irons;	
	In boxes, crates or Packages 112, 131, 972, 1019, 1082, 1462 or 2260, see Note, item 26721, subject to Item 170 and having a density in pounds per cubic foot of:	
	Sub 1 Less than 8	175
	Sub 2 8 or greater	92.5
26721	NOTE—No Change.	

NMFC 61065: Broilers, Grills or Waffle Irons, other than oven-type, with integral heating elements in tops or in tops and bottoms,

Cancelling the current item without making reference to all of the commodities in it is going to immediately cause interpretation problems for this commodity. At the inspector level, it will likely end up being classed using NMFC 61700, which will just cause another endless round of disputes.

Please consider adding the other two commodities into the description for NMFC 26720 for the purposes of clarity.
