**SUBJECT 25****Analysis and Conclusion**

The FCDC approved a proposal to amend item 56825 on Docket 2022-2, Subject 25 (June 2022). However, during the FCDC public meeting, comments were made indicating that the wording of Note, item 56826 is ambiguous, specifically with respect to the electrical or electronic equipment that may be included with the involved manikins. Also, an additional review of the description of item 56825 indicates that the terminology “Kits, medical training aid” is unclear as to intent. As such, this proposal would amend the description of item 56825 by removing reference to “Kits, medical training aid.” This proposal would also amend Note, item 56826 to clarify that item 56825 also applies on a complement of electrical or electronic equipment or other accessories when packaged in the same box. Other changes are proposed to the Note in the interest of clarification and simplification.
