

SUBJECT 40

Re: Obsolete Provisions

Contact: Larissa A. Franklin Telephone — (703) 838-1824 franklin@nmfta.org

Proponent: Freight Classification Development Council

Proposed Classification Provisions

It is proposed to cancel the following items as they are believed to be obsolete:

21580	25020	29395	34850	36490
22605	28450	32790	35030	39410

Analysis and Conclusion

A review of the FCDC's Density Study¹ reveals little or no movement under the provisions of the involved items. As such, this proposal would cancel the involved items in the interest of clarification and simplification.

¹ The Density Study is part of an ongoing effort by the FCDC to collect information on actual shipments across all product categories handled by the LTL industry. Carriers that choose to participate in the Study periodically submit shipment data captured through their respective freight auditing programs. The FCDC uses verifiable data points, identified by NMFC item, that include the weight and the dimensions and/or cube of the shipping unit.
