**Proponent:** Freight Classification Development Council

**Proposed Classification Provisions**

**It is proposed to cancel the following items as they are believed to be obsolete:**

105545	112680	130700
108640	116380	130730
110760	119650	131350
111640	125380	131680
112440	126060	136220

**Analysis and Conclusion**

A review of the FCDC's Density Study<sup>1</sup> reveals little or no movement under the provisions of the involved items. As such, this proposal would cancel the involved items in the interest of clarification and simplification.

<sup>1</sup> The Density Study is part of an ongoing effort by the FCDC to collect information on actual shipments across all product categories handled by the LTL industry. Carriers that choose to participate in the Study periodically submit shipment data captured through their respective freight auditing programs. The FCDC uses verifiable data points, identified by NMFC item, that include the weight and the dimensions and/or cube of the shipping unit.
